## FOREIGN MISSIONS.

MEETING OF THE AMERICAN BOARD. MORE MEN NEEDED-SUCCESS OF THE WORK-

CLOSE OF THE ANNIVERSARY. New-Haven, Oct. 4 .- The anniversary meeting of this Board closed this foreneon. The meeting next year is announced to be held at Minneapolis, Minn. The Rev. Dr. Chapin, President of Beloit College, made a capital speech during the farewell exercises, thanking the citizens of New-Haven for their generous hospitality during the week, and inviting them all to attend the next anuiversary in the distant West. He wanted Eastorn Christians to make some sacrifices and go West, and see what kind of a country their friends lived in, and join them in arousing a new enthusuasm for the work of the Boards. The great gathering of visitors here this year has raised the inquiry whether some limit will not have to be made in future years. If New-Haven, a city of 60,000 inhabitants could hardly accommodate them all, how is Minneapolis, or any other smaller place, to provide for such a crowd ! It must be stated, however, that New-Haven, being so easily accessible to all New-Englanders, and strangers from New-York and the States eyond, would probably draw a larger number of people than any other city of the same size, Easter West. There is no fear that Minneapolis will be deluged in 1873. It is a gratifying fact that this mass of visitors was here, almost without exception, to attend and enjoy the exercises, and not for mere personal pleasure, and cases of sition upon the hospitality of the citizens have been very rare, though one or two instances have come to light more amusing than disgreecful, and these went no further than the application for places. One fend parent wrote to the place she was assigned to, inquiring whether her besiess had a piano in her house on which her daughter could practice; and another applicant for hospitality was anxious to be lodged with some one who had a span of horses for his use while attending the meetings of the Board. Such self-sacrificing spirits were of course wel-

comed with open arms. The proceedings of the Board yesterday developed the fact that there is a great demand for new missionaries for all the foreign fields, and that recruits are slow in ig forward. One speaker stated that he had reently visited seven theological schools in the North which generally supply the Board with its laborers, and which generally supply the Board with its laborers, and had found no more than three young men who had signified their intention to become missionaries. This was discouraging enough; yet it seems that the present meeting has had a good effect on the Yale Seminary in this city, as the Rev. Dr. Clark announced this morning that eleven of its students had come to him to aroo their purpose of entering the mission service, and four pastors had also offered themselves to the Board. Wm. E. Dodge, in some remarks on the subject, said the great obstacle in the way of young men becoming missionaries was the worldliness of the church. Wealth has herecased up the United States immensely in the last ten rns the worldliness of the church. Wealth has ed in the United States immensely in the last ten Since the Board unet in New-Haven, 26 years 100,000 had been spent for railroads, and these and added four times this amount to the wealth of unity. God has been making it easier for nertes, with railroads and steamboats and telebut young men hear everywhere of golden as for success in the world and turn to grasp them, eaker concluded with an earnest appeal for a teomsecration of talents to the cause of religion. V. Dr. Porter, President of Yale, on another occard that the blame for the lack of the missionary among young men must not be laid altosion, said that the blame for the lack of the missionary spirit among young men must not be laid altogether at the door of the colleges where they are educated, as is usually the case. The fault ties primarily with the parents and the family. Why should fathers and mothers wonder that their sons are so worldly-minded, when the influences they have been brought under have tended to make them so! The Rev. Dr. Treat, one of the secretaries of the Board with Dr. Clark, read a paper one this important spirate of the read of the reversible of the which The Board with Dr. Clark, read a paper one this important subject of the need of more missionaries, in which he said that 26 young men are wanted to go to the Papal countries within the next three months, but they are not forthcoming. The reasons of the appeal for more restraits are to save from a premature grave faithful men now overtasked, and to stimulate the ministry at home. The Secretary said that the sending of 26 men would not give an anothe preponderance to the foreign missions, and held that white the home field needed help, the necessities in the foreign field were greater and more pressing. Senator fluckingham reported that the Committee appointed last year to ask the Government to make a treaty with Japan allowing missionaries to settle anywhere in that country, had been well received at Washington and, that the Government had promised to bring about the desired result if ment had promised to bring about the desired result if possible. The outlook of the entire field was reported as encouraging by the committees on the various missions. Not a single death occurred among the missions arises during the year 1871—a fact without presented for 40 years. The Zulu mission, Africa, has greatly prospered, a native ministry being leveloped. A new seminary has been cetablished, and coo pupils are in the different schools. In Bulgarian furkey the number of converts had been doubled. In Central Turkey the work is well in hand, and a new colege is seen to be established. The reports from Contanthonic are most favorable. The missionary pressence had printed 5,600,000 pages, an increase of 3,000,000, and now the native ministers are anxious to have a theological quarterly or themselves. In India, the native ministry were carnest and enthusiastic, while converts, pupils, and schools had increased. The Rev. Dr. Seeley of Americal has gone out to attempt a work among the effuciently deather than the control of these carnest and enthusiastic, while converts, pupils, and schools had increased. The Rev. Dr. Seeley of Americal has gone out to attempt a work among the effucient and of the converts of the converts of the converts of the converts of the carnest and enthusiastic while converts and only in the sandwich Islands are only discouraging feature of the whole massionary work at present is the lack of new workers.

he Woman's Board held a meeting in the North irch yesterday morning. None but ladies were ad-ted, and the house was entirely filled. It is repre-ted to have been one of the best meetings this branch sented to have been one of the best meetings this branch has ever held. Mrs. Bowker of Beston presided, and she, with others, made impressive and stirring addresses. Mrs. Smith, President of the Interior Branch of the Board, reported is auxiliaries in the West. The Boston Board was in missionaries in Africa, Turkey, India, and China, and do paid Sible women who reach the homes of the matives as no one clas can. It has it schools also, for the cheation of teachers and Bible-women, and the receipts of the Board since January has have been \$50,000. A noticeable feature of the present anniversary has been the presence of quite a number of missionaries who are in this country temporarity, or have returned after long years of labor in foreign lands. Several of these made addresses at the various meetings. On Thursday afternoon the Yale Art Gallery was thrown open for a reception to these missionary veterans and proncers, which was attended by a large crowd of people. It was a social reminen and greeting, and proved a very pleasing part of the anniversary programme. Some of the missionaries presented a worn appearance indicating hard work and a severe experience patiently endured, arics presented a worn appearance indicating hard work and a severe experience patiently endured. The future missionary, as Secretary Clark pointed out, will got be called upon to suffer such physical hardships as his predecessors. He can travel now by rail and steamship to almost all parts of the globe. The fields have been surveyed and prepared for his work; his hands are clear for unembarnassed inbor in his came; communication with his friends can be frequent, and all the incidental conveniences of life can be enjoyed. The field now, the world over, is inviting and ought to attract many more to the work of evangelization. All the meetings of the Board, and sometimes four were held at once, were attended by crowded and large audiences, and the whole lenor of the anniversary was spirited and cheerful.

THE COUETS. .

CIVIL NOTES.

Judge Pratt of Brooklyn, rendered yesterday, a decision against the right of the Flatbush Rail-road Company to fay tracks through Lee-ave., E. D.

An application was made yesterday, to Justice Pratt in Brooklyn, for a permanent injunction against Henry S. Buryea, Richard W. Huribut and others, restraining them from constructing a pier on the bulkhead line between State and Joralemon-sts. Deci-

In the Surrogate's Court yesterday the witseries were examined who subscribed to a paper alleged to be the last will and testament of James Hopkins, who to be the last will and testament of James Hopkins, who resided at No. 54 King-st., and who died on Sept. 11, leaving about \$20,000. The will provides that the widow shall have \$1,000 if she will accept that in lieu of her dower; if not, her share in the estate is limited to her dower. The remainder of the property goes to the son and daughter. Mrs. Hopkins announced yesterday through her counsel that she should contest the will on the ground of incapacity, and also that there is a subsequent will. As the widow was said to be in destitute aircumstances the Surrogate directed the executor to pay her \$30.00 amount until the case is decided.

At the Essex Market Police Court, yesterday, Paul Palk, charged by Capt. Walsh with violating the Excise law, was discharged, as the Captain was unable to swear that the beverage sold

Daniel Matthews, colored, of No. 119 West Twenty fifther, was locked up at Jefferson Market, vertealay, for as-saching leashells Jackson, who lives in the same house, and the steriling to bril her with a slung-shor, and James Jewellan of No. 415 Tenth-ave., charged with bratally heating his wife Maria, was locked up in default of \$\text{action}\$ and \$\text{Default}\$.

London Advertisements.

THE DAILY NEWS.

"THE DAILY NEWS" (London, England) offers to all residents in the United States who wish to communeste with the English public assembled factifies.

The circulation of "THE DAILY NEWS" has received an extraordinary imposes, during the last two years, from the popularity won by the character of its Forcign and General Intelligence. The increase in its min is upward of one hundred per pent, and "THE DAILY NEWS." Pluncial subjects causes it Financial Advertisements of every kind.

THE WAR CORRESPONDENCE of "THE DAILY NEWS," published last year, has had an extraordinary sale, twelve editions having been already reached. Subjoined are a feof the criticisms of its contemporaries, in England stal elsewhere:

MORNING POST.

"The whole correspondence forms a series of graphic pictures." ATHEN AUM. "Of all the contributions to the history of the war, there is none mor

mefal than the volumes before us." ILLUSTRATED LONDON NEWS. "The Special Correspondents of 'THE DALLY NEWS' have sur-passed the efforts of all those employed by the other journals." SPECTATOR.

"THE DAILY NEWS' has been by far the richest in corre of value since the war began."

"The merits of the correspondence precured by "THE DAILY NEWS" depended not only upon its singular promptisade, but also on its inherent excellence, as being at once clour, accurate, and picture-sque."

SATURDAY REVIEW. "THE DAILY NEWS' has shown itself prefiniteent in the accuracy and value of every kind of intelligence with regard to the war."

QUARTERLY REVIEW. the war by the accuracy of its information.",

THE PORTNIGHTLY REVIEW. "There is no need to commend the war correspondence of 'THE DAILY NEWS' to persons who recall the accounts of the bettles of Gravelotte and Sedan, and of the terribly photographic pictures of Meta

daring and after the siege." GLODE. "The War Correspondents of 'THE DAILY NEWS' have carned ! that paper a preemiaget reputation."

"The excellence of 'THE DAILY NEWS' correspondence has been s matter of common notoricty and general con-BRITISH QUARTERLY REVIEW.

"Probably no accounts of the recent campaign so amply estaded our modern thirst for the pictareaque. The description of the battle of Gravelotte reads like a page torn out of 'Tacitua,' and for awful vividness might stand by the side of Thurydiden's narrative of the plague."

THE BIRMINGHAM POST "The transcendent stride which 'THE DATLY NEWS' has taken during the war, displaying saddenly a brilliant supremary over its contemporaries, has naturally excited both curiosity and admiration." ILLUSTRATED TIMES.

"To criticise these letters is superfluous; their marvellous resiniful accuracy were universally acknowledged as they ap; EXAMINER. "Earlier and fuller information than any other paper has given about the war has appeared in "THE DALLY NEWs."

THE WESTMINSTER REVIEW. "Most Englishmen know the value for all purposes of the communica-tions published in "THE DAILY NEWS," as the most critical events were evolving themselves. It was out of this correspondence that the systematic efforts that have been made in this country to succor the affected French peasants took their rise.

NEW-YORK TIMES. "This collection of letters is a valuable contribution to the history of

this memorable stroggie," NEW-YORK NATION. "Many of the letters equal in descriptive execution the facest deliuna ations of a similar character in novels, or, say, in Carlyle's 'Proderiek the Great.' The accounts of the Slage of Metz, which are the fallows, pay-ficinally abound in what we might call was sincidus after nature. The description of the Battle of Sodan is a masterpiece."

NEW-YORK TRIBUNE. "THE DATLY NEWS' has distanced all other Buropean journals in e faliness, promptness, and accuracy of its news."

CHICAGO TRIBUNE. "It is the most important and accurate contribution to the history of war we have yet seen."

THE DEUTSCHE ZEITUNG (BERLIN). "The superiority of the descriptions of the War which were furnished by THE DAILY NEWS is everywhere schnowledged. Therefore, the collection, with an historic commentary, and the connected exposition of the events of the war, which is thus produced, must be prenounced in the

highest degree useful. The Correspondents of 'THE DAILY NEWS excelled those of all other journals in promptitude, contoursness, and cursey,"
Another reprint from the columns of "THE DAILY NEWS" is the
Birry of the 'Besinged Resident' in Paris," of which the following
inious have been expressed: TIMES.

"The missing letters of the "Dooleged Resident" are no way inferie to those that have had a first success in the columns of a contemporary He has a style of writing that reminds one of Mr. Bernal Osberne's talking-a style to which the Parintsus and the slege tent themselves outh singular felicity. He has the art of putting common-place observe ions in a novel way, generally telling, and often stinging." THE BRITISH QUARTERLY REVIEW.

"The personal element in these letters was unquestionably that which gave them their charm. It seems cornein that the despicable traits have to be taken into account in any trainful astrative of the great siega."

ILLUSTRATED LONDON NEWS.

PALL MALL GAZETTE.
"The 'Bealeged Resident' led a life which, as reflected in his faithful
layer, seems to have been full of interest, and of that very variety in

The letters from the "Besieged Resident" were always racy, graphic, thoroughly unique in their matter as in their style."

LONDON SOCIETY. "There is a possiliar cyale flavor about the remerks of the 'Resident.'
I was a bridy chance which shot up this been observant writer in aris, and aliented soon a graphic account of the slogs."

"The 'Diary of the Besieged Resident' needs no commendation from a. Von Modific, at Vernelles, pronounced it extremely interesting. At one is disputes with the letters from diets, in the same pormal, the lace of hunar appengine war correspondence of the person."

MORNING POST.

Most completely is the truth of the 'limbered Resident's' views con extracts from the ultra papers are very amount, and serve, in conjunc-tion with numerous little anecdotes, to heighten up the heavier portions of the diary, as well as to enlighten us on the various penuts relating to ume. We have, however, abstained from a closer examination of the work to avoid ferentialling the interest with which it will be read. Parts of the cliary are now printed for the first time, and thin complete a marrature which even in its imperfect state was received with great favor."

erest when they appeared from time to time in 'THE DAILY NEWS.
They give a lively, minute, and in the main very accurate description of
affairs in Paris during the four months of its isolation from the rest of France. Other kindred books will soon be published which will bein to complete the picture, but this volume is likely to be more valuable than any of the others, and we certainly cannot expect to find elsewhere so much follows of detail."

The 11gh character of the ordinary literary contributions to "THE DAILY NEWS," is shown by the following list of works (several of them reprinted in the United States from the English editions), all of which have appeared in its columns.

Duchess of Kent—Joseph Hume—Lord Herbert of Les —Lord Lansdowne
—Lord Lyndburst—Lord Palmerston—Lord Broughum—Bashop Blom-
